CAMPAIGN TO RESTORE BOSTON'S POLICEMEN

Labor Leaders Consult With
Police Commissioner

Launch Movement To Get Cops
Back In Places Declared
Vacant.

(By Associated Press.)

Boston, September 15.—A definite campaign to regain for the striking policemen the places now officially declared to have been lost because of desertion of duty was expected to be inaugurated today.

The action was expected to depend upon the result of a conference between union labor leaders and Police Commissioner Curtis.

The commissioner at the request of the union heads consented to the meeting on an unofficial basis but the labor men said they hoped to obtain an exchange of views which might be the basis of negotiation.

The extent to which the American Federation of Labor would support the fight for reinstatement and recognition as a union was in doubt today. Immediate danger of a general strike threatened by the central labor union appeared removed by the disposition of the labor leaders to move slowly.

In the meanwhile the city is rapidly returning to normal conditions.

MOLLA BJURSTEDT, RECENTLY MARRIED,
DISCUSSES WOMEN, LOVE AND LAWN TENNIS

Franklyn Mallory and his bride, formerly Miss Molla Bjurstedt, famous tennis star, watching a tennis match at Forest Hills, N. Y.

The tennis world in particular and the country in general were interested in the recent news that Miss Molla Bjurstedt, famous Norwegian net star who set the U. S. tennis world on end for several seasons, had at last succumbed to Cupid's game and had married Franklyn Mallory, New York representative of a Philadelphia banking firm. She had apparently spurned Cupid's efforts for years. She said recently, discussing her marriage: "Love is life to every woman. Tennis, like everything, leads to sentiment. I hope some day to have other interests in life than playing tennis and flirting."

LODGE ORDERS BORAH TO RETURN

WATERLOO, IOWA, September 15.—(Associated Press)—Senator Borah, who with Senator Hiram Johnson is trailing President Wilson in an effort to counteract whatever favorable impression the President may make in his journey has been unexpectedly summoned back to Washington by Senator Lodge, chairman of the Foreign Relations Committee.

Information to that effect was received today from Cedar Falls where Senator Borah spoke last night.

SPECTACULAR FIRE IS SLOWLY BURNING DOWN

Great Oil Fire Has Been Burning

FIFTY PERSONS INJURED

Blaze Reported To Be Under
Control of Firemen

(By Associated Press.)

New York, September 15.—The spectacular oil fire which since Saturday afternoon has raged at the plant of the Sone & Fleming Co., in Long Island City, with injury to more than fifty persons and property damage running into the millions, was gradually burning itself out today.

Although officials of the fire department said that the blaze was well under control, it still was burning briskly and promised to continue for two or three days.

Thirty-six tanks have been completely destroyed. Early today another tank blew up, shooting into the air a great column of smoke. Six tanks are still on fire, but the conflagration is under control.

LODGE PRESENTS GREAT TREATY WITHOUT SPEECH

(By Associated Press.)

Washington, September 15.—Consideration of the German peace treaty began this afternoon in the Senate.

It was called up by Chairman Lodge and became the first great document of its kind to be discussed in the Senate in the full light of publicity.

After having the Senate adopt a motion without objection to proceed to consider the German treaty, Chairman Lodge presented a copy of the treaty with Austria which he said he had received from the Chicago Tribune and which the President had declined to present to the Senate.

There was little formality to the beginning of the Senate contest over the treaty. Contrary to expectations Senator Lodge made no preliminary statement and Senator Jones, democrat, of New Mexico, proceeded to deliver a prepared address on the League of Nations.

Denouncing senators whose "insidious declarations had poisoned the public mind against the peace treaty and the League of Nations," he said if the reservations recommended by the foreign relations committee majority were adopted the treaty as well as the league of nations covenant would "fail."

Brownsville Suffers No Great
Material Damage

(By Associated Press.)

Houston, Texas, September 15.—Port Aransas, 25 miles from Corpus Christi on the upper end of Mustang Island, was completely demolished by the hurricane Sunday, according to a wireless message picked up here today and which read:

"Port Aransas completely demolished. Customs offices and all records lost."

FIRST WORD

The message is the first direct word from what is believed to have been the center of the tropical disturbance which swept inland from the Gulf Sunday, between Corpus Christi and Brownsville.

The radio is believed to have been from a ship. The signature being that of Captain Luther, deputy collector of customs for Port Aransas and Corpus Christi.

Port Aransas has a population of approximately 600 persons and is in a more exposed location than Corpus Christi where 15,000 people live.

BROWNSVILLE SAFE

(By Associated Press.)

Brownsville, Texas, September 15.—(By Army Radio to the Associated Press)—Brownsville suffered no material damage from the high winds that accompanied the hurricane that touched the Texas coast Sunday.

The hurricane apparently did not hit the lower coast country. High westerly winds which attained a velocity of 40 to 50 miles swept the lower Rio Grande valley, causing damage to light frame buildings, but the storm proper curved out into the gulf again when it reached the coast near here.

MANY DEAD AT CORPUS CHRISTY HEAVY FLOODS

(By Associated Press.)

San Antonio, Texas, September 15.—Several persons are believed to have been drowned at Corpus Christi as the result of the hurricane there yesterday, it was learned at two o'clock this afternoon when wire communication was restored.

It was said the water had reached to the second story of some buildings in the main part of the city and the down town section was reported under martial law. The information was received by telephone.

AIRMAN DOES THRILLING PARACHUTE LEAP
FROM SEAPLANE ABOVE STATUE OF LIBERTY

Major Orde Lees making leap from seaplane, showing Statue of Liberty and height from which he dropped, and closeup of Lees, with his parachute harness on after feat.

Major Orde Lees, formerly of the British air force, recently jumped from a seaplane while it was flying at a height of only 250 feet near the Statue of Liberty to demonstrate the efficiency of a parachute he invented. The parachute opened perfectly, and he landed easily. The feat is considered difficult because of the short drop. A short time ago in London Lees leaped from the London bridge into the Thames with his parachute, a distance of only 155 feet, making a perfect drop.

GOMPERS MUM ON RUMORED STEEL STRIKE

Representatives of Twenty-four
Unions To Meet at Pittsburg
Wednesday.

(By Associated Press.)

Washington, September 15.—President Samuel Gompers of the American Federation of Labor on his return here today absolutely refused to make any comment on the report that the strike of steel workers set for September 22 had been postponed.

There was much evidence that the steel strike had not been called off. Labor officials pointed out that the representatives of the 24 unions involved would meet at Pittsburg Wednesday and that only by their action could a cancellation of the strike call result.

WILL CONSIDER GOMPER'S WISH NOT TO STRIKE

(By Associated Press.)

Cleveland, O., September 15.—It was learned from an authoritative source here today that a meeting of the representatives of the 24 organizations affiliated in the proposed steel strike has been called by President Samuel Gompers of the American Federation of Labor to be held in Pittsburg, Wednesday, to consider Mr. Gompers' recommendations that the strike be postponed until after the industrial conference on October 6th.

MINERS FIGHT THE SOCIALISTS

(By Associated Press.)

Cleveland, O., September 15.—The miners' strike now in progress in parts of the Illinois coal fields and the revocation of the charters of unions participating in this strike were presented to the convention of the United Mine Workers of America today as moves and counter moves in a plot to gain control of the United Miners' organization by socialists and radical elements.

ISOLATION OF THE U. S. IS AIM OF OBJECTORS

Senator McCumber Republican
Next in Rank to Sen. Lodge

MAKES MINORITY REPORT

Selfish And Dishonorable is the
Way He Characterizes The
Amendments.

(By Associated Press.)

Washington, September 15.—Rejection of all proposed amendments to the German peace treaty and modification of the recommended "strong" reservations was urged in an individual minority report filed with the Senate today by Senator McCumber, republican, of North Dakota, next in rank on the Foreign Relations Committee to Chairman Lodge.

Senator McCumber did not join in the recent republican majority report and voted with the democrats on amendments and several reservations. Attacking the majority report, Senator McCumber denounced most of the majority amendments as "selfish, immoral and dishonorable," and charged that they seek to "isolate the United States from the rest of the world and abandon our allies."

To the substance of some of the proposed reservations, Senator McCumber's report declared, "there can be no serious objection; but against the manner in which they are asserted, I do most earnestly protest. 'They are couched in a defiant, discourteous and overbearing manner and seem intended to express a jingoistic spirit that ought to be eliminated from American statesmanship.'"

TASK OF CHURCH IS POINTED OUT BY THE BISHOP

Columbus, O., September 15.—"The Christian Church must rediscover God for itself," declared Bishop William F. Anderson of Cincinnati yesterday in his annual conference sermon at Franklin Park M. E. church.

Bishop Anderson preached on the words of Job: "Oh that I knew where I might find Him!" These words were spoken by Job in his darkest hour, when earthly comforters had proven themselves inadequate and he was seeking something higher, said the bishop. The present time may be likened to Job's darkest hour, for these are among the darkest days of history. They are fittingly described in the first chapter of Genesis: "And darkness covered the face of the deep."

In these days we, like Job, call out "Oh that I knew where I might find Him!" To find God, said the bishop, the church must take the lead and rediscover God for itself; preachers must reveal in the character of God, and leaders among men must have a new baptism of prophetic vision.

Speaking of the significance of the word prophet, Bishop Anderson declared too many are of the impression that a prophet is one who simply foretells; a prophet is one who only foretells, but tells forth, whatever discouragements may face him.

At the ordination service in the afternoon, Bishop Anderson assisted by the six district superintendents of the conference, ordained nine elders and six deacons.

TAYLOR REUNION

Labor Day is a red letter day in the life of Mrs. Sarah Ann Taylor. For it is the day chosen for the annual reunion of her family, which has now reached the fifth generation. Although Mrs. Taylor is almost 84 years old she enjoys fairly good health and is in possession of all her faculties; and so can look forward with anticipation to this family gathering.

As she has many relatives in this community, perhaps a few facts in regard to her large family will be of interest. This family has been singularly blessed with good health and vitality. The death of the husband

and father 19 years ago being the only one in the family covering a period of 46 years. The eight children are all living, as are also the companion of each one. There are 33 grandchildren; 32 great grandchildren and two great great grandchildren, which makes just 75 direct descendants. Add to this the number that have been brought into the family by marriage and the total is 106. And in all this number there is not a cripple nor a deformity. There are only two old bachelors and one still young—old maid. Surely it is a blessed privilege to be allotted 14 years of life and witness such great changes as have taken place in our country, and be surrounded by such a family. Yes, surrounded; for they all live in the grand old Buckeye state; the most distant ones being some grandchildren in Cleveland.

This year the reunion was held in the beautiful grove directly across the road from the old homestead; which made it more of a real homecoming than in former years, when it was held at other places.

The long table was spread beneath the majestic old oaks. All wartime bans on food being lifted, the feast was all that anyone could wish or do justice to. After the dinner, the time was spent in visiting. There were 74 of the family present, several of them from Columbus; others from Washington C. H., Cleveland, Dayton, Mt. Sterling, New Holland and Madison Mills.

The invited guests were: Mrs. J. W. Porter, daughter Nellie and son Bernard; Miss Callie Taylor from Circleville; Mr. and Mrs. John Haggard and little son from Washington C. H.; Mr. and Mrs. Alvin Robin and daughter from Danville; Mrs. Ida McCafferty from Cincinnati and Mr. and Mrs. J. W. Hopkins and Mrs. Lizzie Shobe of Madison Mills—New Holland Leader.

MONTENEGRANS VERY IGNORANT

(By Associated Press.)

Paris, August. (By Mail)—Inhabitants of the mountains of Montenegro live in ignorance of the most elementary rules of hygiene and the strangest superstitions concerning diseases still flourish among them, says a report of the mission of the American Red Cross which has just returned from that country.

The mountaineers believed that physical ailments were carried on the wings of baleful breezes and that contagious diseases were distributed during dark nights by evil spirits. Thus they slept with their windows hermetically sealed and tuberculosis reigned supreme. The peasants received the advice, suggestion and medicine of the American Red Cross without enthusiasm.

One aged man suffering from a chronic affection of the throat insisted that it was caused by his tongue being too small. He refused to make use of the antiseptic gargle supplied by the Red Cross until a doctor told him it would make his tongue grow. He was the most surprised Montenegrin in the world when after a few days he was cured.

MOVIES AFFECT MANY WOMEN IS DECLARATION

(By Associated Press.)

Chicago, Ill., September 15.—"Girls will be psychologically affected by moving pictures," says Lorado Taft, the sculptor. "They see beautiful women on the screen then they go home and practice for hours before the mirror. The outcome? Graceful walking, pleasant faces, fine complexions and vivacity. Still, the hoydenish and caper-cutting movie actresses are a bad influence."

In the opinion of Miss Indiana Guberson, and Irish painter who has studied in Paris and Madrid, the movies have made American women more beautiful.

"Ah, the rising generation of Chicago girls," she exclaimed. "One sees a far, far larger number of charming

women here now. Let them talk of cabaret dancing and rich pastry ruining the attractiveness. It is the movies that are molding ever-fresh types of native beauty—new American types."

Yet she conceded that the screen plays wield an influence that will work either good or evil.

HONOR MOTHERS

(By Associated Press.)

Cincinnati, O., September 13.—Ten thousand Cincinnati mothers are, it is planned, to be honored by a Mothers Memorial building in a movement which has been launched by the Woman's Home Missionary Society and Esther Home board of the Methodist Episcopal Church. Mrs. William Anderson, wife of Bishop Anderson, as president of the Esther Home Board, is head of the movement. The building will be devoted to the uplift of foreign-born women.

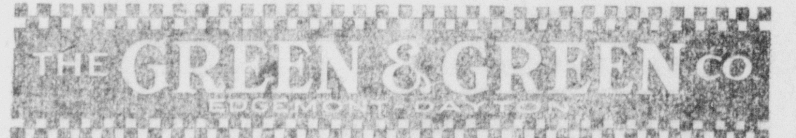

A woman tries to appear discreet by refusing to give a reason where she has none. Just because a girl thinks a fellow is a brick is no reason why he should throw himself at her head.

Camouflage

What does it mean? During the great war, this strategy was employed frequently.

By close observation we find the same principle used in covering up the essential points in a good suit of clothes.

Good fabrics, workmanship and style selections are usually points of interest conveyed by various manufacturers, but no attention given to the interior construction of garments they make.

In building you a suit of clothes, we start with a solid foundation, thus a garment that will hold up all the correct lines.

Early buyers this season are sure to reap the benefit by selecting strictly Virgin Woolen Clothes.

SAYS FAYETTE FARMERS LEAD

In no part of Ohio, it is declared by a local dealer who is familiar with conditions, are the farmers adopting the improved farming equipment more rapidly than in Fayette county, where the number of farm tractors is growing rapidly, and where the demand virtually exceeds the supply of some makes.

"The Fayette county farmer is alive to the advantages of using farm tractors and other late improved farm machinery, and is now beginning to buy farm trucks to supplant the time-honored farm wagon for heavy hauling," states the local man in sizing up the situation.

It is further declared that the big demand of the farmers is for a motor cultivator, and that this demand is met by the production of two or three very satisfactory makes of motorized cultivators.

What may be expected in the near future is cited in the instance of one farmer—C. M. Scott, residing near the fair grounds, who is now harvesting a field of corn in which a horse had not set foot during the entire process from the time the ground was broken until the corn was ready for harvest.

THE PEACE TREATY THE SERMON SUBJECT OF REV. W. B. GAGE

At the Presbyterian Church Sunday night Rev. W. B. Gage preached to a large audience on the Peace Treaty.

In the course of Rev. Gage's very interesting discourse, among other things he stated:

"The peace treaty should express the spirit of the Gospel and reveal no selfishness. A dignitary of the church, a Methodist Bishop, told me this Spring that it does and to a remarkable degree. I really do not know how he knew, for its a ponderous document, filling two large volumes, demanding I should say from three to six months for its reading. Few there are who really understand it. But in your thought about it, let me urge that it be approached from the standpoint of fidelity to Biblical principle.

"And in it the big thing should not be commerce, nor should money consideration loom large. It is not how much can Germany pay. How much money can be gotten from her? That is not the main thing—the important thing. It is rather this. What can be done for her to remake her mind? How can the course of her national thinking be changed?

"We do not mean to say that she should not make restitution. The peace treaty should deal justly and this is justice. But the matter of main concern is her national spirit. Will it be one still imperiling civilization?

"Hence the peace treaty should summon the church to its aid. No government and not laws can change men, can transform their character. Religion must come to men, softening the asperities of their hearts, and instituting a new world order.

HAD TO HAVE HIS HEAD PROPPED UP TO GET TO SLEEP

Zanesville Man Often Slept in a Swing, Because he Couldn't Lie Down; Thought it Was His Heart.

Took Dreck, Which Killed the Gas in His Stomach; Moved His Bowels Daily, and the Other Troubles Disappeared.

Zanesville now reports a strange case, and one that will interest many citizens. It is told for publication in this paper, by Mr. John D. Spinks, a well known man, who resides at 410 Jackson St. He says:—

"Many a night I have slept in a swing until three o'clock in the morning, because I could not lie down in bed. I always had to have my head propped up to get any sleep at all. I thought the fault was my heart, but I've found it was my stomach and bowels, for when I got relief from the gas in my stomach, my heart felt all right again, showing it was the gas pressing against my heart.

"This Dreck medicine sure has saved my life, I believe. I can now eat big meals and never have the pain and gas, as before. The backache and sore muscles have disappeared, and I get seven hours good sleep every night. My bowels now act regularly, whereas before, I had to take medicine every night, and if I forgot it, I was bound up the next day. I never have a dizzy spell now, and I feel just fine. You say for me that Dreck is great medicine, and every person in this section should try it."

Dreck rouses a lazy liver; gives strength to weak kidneys; helps the stomach to digest the food; overcomes constipated bowels; relieves backache, headache and dizzy spells.

All good druggists now sell Dreck and it is highly recommended in Washington C. H. by Frank Christophers.

Hoover Comes Home

Herbert C. Hoover is home again—back in his native land—after serving overseas, continuously since the signing of the armistice, as head of the great Inter-Allied Relief Commission.

Mr. Hoover's arrival at the port of New York was unostentatious. He has done a great work abroad following the close of the war as he did a great work in America during the war. While Mr. Hoover's duties in regulating food supplies and directing relief work have been of the most vital importance, while he has been compelled to formulate and insist upon the observance of some extremely drastic rules yet he has escaped almost entirely, the abuse which has been so unstintingly heaped on other officials whose work one would suppose, would be far less objectionable to the public than was Mr. Hoover's.

Many people are wondering why it is that Mr. Hoover has escaped so easily—no easier than he deserved, but still far easier than others who did not deserve the abuse they received. Explanations of this singular phenomenon in connection with the public service, have not been numerous because Mr. Hoover is not a very much talked about man and, in the fact that he is not much in the limelight, personally, either for favorable or unfavorable mention, may be found the true explanation for Mr. Hoover's escape from abuse. He is not "press agented" and neither is his work. He has done his work well and the results have been satisfactory.

When he was ready to come home neither Mr. Hoover nor his enthusiastic friends preceded his departure by columns of news. He arrived in New York unheralded—as a simple American who was returning home from work as millions have been doing.

We like that peculiar feature in connection with Mr. Hoover's work—the absence of fulsome praise and the absence of abuse.

Let Them Go

There are some people who "view with alarm" the exodus from this country of about one million five hundred thousand foreigners who desire to return to Europe and take with them the fruits of their labor in this country estimated to total several millions of dollars.

We fail to see anything discouraging in the fact that these people are going back to European nations. If they prefer conditions in Europe to conditions in the United States then they should leave. This is no place for them. The only alarming feature in connection with foreigners is that all who are discontent don't leave, but stay here to spread discontent and dissatisfaction.

The fact that the departing ones take a good sized sum of American dollars with them is not disturbing, or should not be. The presumption is that America received the full equivalent for the money they take away.

Let them go if they want to go and send more who are dissatisfied, but who cannot or will not go notwithstanding they are dissatisfied.

The Right Idea

That was a glorious celebration held over in our neighbor city of Dayton on Saturday, when all the busy city folks put aside work and all other considerations and joined in parades and glad acclaim in observance of good citizenship and testifying, by words and acts, their appreciation of the blessings they enjoy as American citizens.

Men of all classes and all creeds and occupations, rich and poor, white and black, women and children, joined in the great glad festival. Factories were closed and owners and employes joined in the festivities.

If every community in the land would follow Dayton's lead and do the same thing the thick fogs preventing a clear vision, which arise from the swamps and bayous of discontent during the dark periods would pass away like mists before the morning sun. We would see again, with clear eyes the familiar blessings of which, some of us, have been growing unappreciative and we would see the new ones which have come to the world. Our troubles, largely imaginary in comparison, and magnified by unrest and a surfeit of blessings, would vanish.

If we could only see and appreciate this land, quit talking about discontent and talk and think about our happy lot, how much better it would be.

Dayton has hit upon the right idea.

POETRY FOR TODAY

SINCE YOU AND I WERE YOUNG

Full many a summer has gone by,
Full many a winter flown,
Since, in life's heyday, you and I
Surveyed youth's crimson zone.
The whole world, then, to mellowed
chime,
The harp of Nature strung,
But strings have rusted out with time
Since you and I were young.

The house is gone that once we knew
The orchard is no more,
The lilac and the rose bush, too,
That bloomed beside the door—
The grapevines gone back to the dust
From whence of old 'twas sprung,
And tombs have claimed their sacred
trust
Since you and I were young.

Long since 'tis gone, the school house
where
Our childhood games were played
Of fox and goose or dog and deer
When winter's snow was laid—
The weeds now flourish round the
wall,
The bell has lost its tongue;
Grim years of time have changed it all
Since you and I were young.

The green o'er which we trampled
then
Has donned a paler hue;
The shade's grown darker in the glen,
The sky, a sadder blue—
The songs we hear less tuneful seem
Than those that once were sung;
Less dear has grown each fleeting
dream
Since you and I were young.

But hearts beat on by time unchanged
Though with life's woes imbued—
Love cannot be from love estranged
Nor by Time's hand subdued,
Though age may trace his wrinkles
o'er
The brow where smiles once clung,
He's taught us how to love the more
Since you and I were young.

WILL GEORGIA TECH LET JOE GUYON GO AND TRY TO BEAT PITT WITHOUT HIM?

Joe Guyon.

especially the college adherents.
Every grid fan knows Joe Guyon, the Indian star around whom Georgia Tech's wonderful football machine has been built for the last couple of seasons. Georgia Tech's greatest—and practically their only feared rival in these seasons has been the University of Pittsburgh, not a member of the big conference in the south. Last year Pittsburgh refused to enter the contest with Georgia Tech if Guyon was allowed to play, claiming that he had played professional football and therefore was ineligible.

Georgia Tech realizes that the same protest will be registered this fall when the Pitt game arrives if Guyon is a member of the team.

Now, here is the point. It is reported that Guyon has been offered a fat sum to play with the Canton, O., professional team this fall and has told his college of the offer. Georgia Tech officials must decide between two courses.

They can persuade Guyon to play with his college team and thereby keep the great machine developed last year intact for all the "Big Seven" conference games in the south—thereby undoubtedly coping the conference title without any trouble.

Or they can disrupt their present machine and take a chance on building up a new one by the time the Pitt game rolls around—after the conference schedule is completed. This would mean sacrificing their conference games while the chance of making a clean sweep in their conference games while tuning up a machine to wall-pit Pitt.

FUNERAL CAR IS DEMOLISHED AT CROSSING

Frank Roberts, Driver, Miraculously Escapes Death at Gad Crossing in Good Hope.

Frank Roberts, an employee of the McCoy undertaking establishment of this city, miraculously escaped serious injury or even death at the D. T. & I. rail road crossing in Good Hope about four o'clock Saturday afternoon when the McCoy funeral car which he was driving was struck by a south bound freight. He escaped with a few scratches and bruises.

Roberts was returning from the Renick funeral in Greenfield and did not see the train until it was on him. The heavy freight engine struck the car on the right side near the front and whirled it around. The back part of the engine struck it and threw it into the ditch on the left side of the road.

It is thought that Roberts went out through the windshield but it is not determined just how he escaped. It was at first feared that he was seriously injured as he was covered with blood when help arrived but examination showed that a cut or two on his face and a gash in the back of his head were his only injuries.

Only a twisted and splintered mass of wreckage remained of the big black funeral car. It was valued, it is said, at \$8,000.

The train crew claim that the engineer whistled for the crossing but the driver of the car says that he heard no sound at all. At this point the railroad runs down grade for over a mile and the train had coasted almost noiselessly to the crossing, it is claimed. The view of the track is obstructed by a house which sits almost beside the crossing.

After striking the car the train backed to the crossing the crew fearing that the driver had been killed.

Within a few minutes after the accident occurred many auto loads of people from this city were on the scene.

FUNERAL SERVICES MRS. ELIZABETH GATES

Rev. C. R. Ferguson conducted an affecting little service at the Baptist church Saturday afternoon for Mrs. Elizabeth Gates, and made an appreciative talk of her life, dwelling upon the love and affection that existed between this mother and her children.

Mrs. Walter McLean and Miss Dorothy Kneisley sang softly the hymns, "Sun of My Soul," and "Anywhere With Jesus." Mrs. John Case played the accompaniment.

The body was placed in a vault at the Washington cemetery until Monday morning to await the arrival of the son, Lt. Walter Gates, from Camp Humphries, Md.

The daughter, Miss Pearl Gates, who holds a government position at Washington, D. C., arrived Friday.

PERFORMS MARRIAGE WEARING OVERALLS

Washington is right up with the times. A few days ago Rev. Gale read in the newspaper published in Zanesville that while Rev. G. G. Shurtz was packing his goods preparing to move to Giffin, Ohio, wearing overalls while at work, a young couple came who wanted the nuptial knot tied quickly, so he performed the ceremony garbed in overalls.

Saturday Rev. Gale was dressed in overalls when solicited by a young couple to tie the knot for them. He was told that it was not necessary to change clothes; that the ceremony and not the costume was the important thing, so with working clothes on he said the words which made the happy couple one.

ATHLETIC MEET DEFEAT AGAIN AT WILMINGTON

Locals Shut Out in Interesting Game in Which Real Ball is Played.

Former Athletics Included In Line-up Opposing The Washington Team.

North Side Park at Wilmington was packed Sunday when the Washington Athletics journeyed to that city for the second game of the series. Featured by airtight pitching on the part of both hurlers the game is said to have been the best exhibition of the national game staged by the Clintons and Athletics. Two of the players dismissed from the Athletics had been signed by Wilmington, it is announced. Hig Corwin played left field for the Clintons while Hi Grandle was on the bench in uniform.

Black, the new acquisition of the Washingtonians in the hurling line, pitched steadily and would have won but for the fact that Heironemus was in the best of form and the locals were not able to put a single runner around the circuit.

Washington secured five hits. Noon was the entire batting order with three of these swats. Out of four times at the plate he connected for a single, a two bagger and a three ply hit. Lewis got the fourth hit, a single. Black got the fifth, a single also.

Heironemus had the Washington sluggers hitting them on the ground and McCall at first base had 15 putouts. Only five putouts were made in the outfield.

YOUNG MATRON IS VERY POPULAR IN LONDON SOCIETY

Mrs. Joan Dickson Poynder.

Mrs. Joan Dickson Poynder is one of the most popular and beautiful members of London's younger set. She is the only daughter of Lord Islington. During the first two years of the war she served as a nurse. When the women's army auxiliary corps was organized she joined it and served with it until the end of the war.

One reason for the victory of the Clintons was the fact that they played errorless ball in the field. Four errors were chalked up against the Athletics.

ALL STARS LOSE AT MT. STERLING

The Washington All-Stars, a recently organized team of ball tossers, played their first game with the Mt. Sterling team at Mt. Sterling Sunday afternoon, the team is managed by Herbert Leach and gives promise of strong organization.

Coffland, the Mt. Sterling pitcher was touched up lively by the Washington boys and escaped only by the fast work of his teammates, Melvin pitched a good game for the locals, but received the worst of the breaks when, with one on base a hit which was really a two-bagger rolled through the fence for a home run.

The stellar performance of Sollars in left field was the feature with a spectacular catch and five hits out of six time up. Three two-baggers were included.

This team will play Circleville next Sunday at Circleville.

MEXICO TAKING UP IMMIGRATION

(By Associated Press)

Mexico City, Aug. 30.—(By Mail)—

How to make home for a million prospective new colonists, how to make these person fit into the scheme of life here and how best to distribute them over the republic are questions of immigration receiving the attention of a special commission appointed by President Carranza.

A according to data collected by this Committee on Articles of First Necessity one million persons will migrate from various European and Asiatic countries to Mexico, within the next year. They are expected to leave their native lands because of disrupted conditions due to the war. Communication received here from England, France, Germany and Russia indicate that colonies of those nationals are already being formed and will embark for Mexico at an opportune moment.

The committee has made no announcement as to the location of the various colonies; whether they are to receive grants of land or are to be assimilated among the natives. It is believed, however, that there is sufficient undeveloped land in the republic to accommodate all home-seekers and that equitable distribution will be made as occasion demands.

Lower California at present appears to be the goal of a large number of repatriated Mexicans who for the past few years have been living in the United States. El Democrita asserts that within the next few months 5000 new Mexican families will be established there.

LYOYD GEORGE ISSUES APPEAL

London, September 14.—Premier Lloyd George issued an appeal to the people Saturday for help in constructing a new world in place of the old one "where the toil of myriads has purchased nothing better than squalor, penury and anxiety."

"If any are inclined to maintain this old world, let them beware," he adds, "lest it fall and overwhelm them and their households in ruin."
"It should be the sublime duty of all without thought of partnership, to help build a new world, where labor shall have its just reward, and indolence alone shall suffer want."

Another reason why the grown man who wears Buster Brown hair isn't much respected is because folks think he permits the barbers to play a practical joke on him.

SUPT. NELSON ISSUES APPEAL

Superintendent Nelson of the County public schools today appealed to teachers and school children to take an active part in the War Savings Stamp campaign this fall. The teaching of thrift is to be emphasized more than ever in the Ohio schools. Superintendent Nelson has asked for the cooperation of all the teachers in order that the sale of War Stamps this fall may be much larger than during the early part of the year. He pointed out that the government is still calling for money and although other countries were floating loans the United States was depending upon War Stamps to a great extent for its revenue.

Every school pupil in Fayette County can become a member of the "Ohio First Club" by purchasing or selling one War Savings Stamp or more. Teachers also are eligible for membership and Superintendent Nelson is especially anxious that as many and teachers as possible become members. All members of the club selling more than \$500 worth of War Stamps before the end of the year will be awarded a medal.

BRAZIL ELATED OVER THE RETURN OF OCEAN TRADE

(By Associated Press)

Para, Brazil, August 6.—(By Mail)—There were twelve steamers today at the docks of the Port of Para, the "gateway of the Amazons." Commenting upon this unprecedented activity the Estado says it is a long time since such movement of commerce has been seen in this harbor. Brazilians have been looking forward to an increase in trade with the United States and it was a matter of keen regret that only one of the twelve steamers was American. Four were British, and seven Brazilian. The American vessel will be here a long time. She is the disabled Shipping board steamer "Topocaxi."

Americans in South America feel it is sad, that notwithstanding the stories of wonderful progress in American shipbuilding during the war, inspiring tales of smashed records in rivet driving, and finished ships being turned out in marvelous time at mushroom yards on the Atlantic, Gulf and Pacific coasts, it is probably true that "haste does not make speed." An American was heard to ask today as he looked at the flags flying from the masts of a dozen vessels: "Are we being left at the post?"

Henry S. Fleming, a New York engineer, has just arrived here from Liverpool. He says that at each of the four ports at which his steamer touched he saw American steamers in a disabled condition.

The usual order of things is reversed in matrimonial warfare. First comes the surrender, then the engagement, and, last but not least, the call to arms.

COMMANDER SMITH ON WAY TO COAST

After spending some weeks at German seaports, Commander Earl Smith, son of Judge H. L. Smith, of Xenia, formerly of Bloomingburg, this county, is now on his way to the Pacific coast aboard the United States destroyer Greer, which he commands.

Commander Smith's vessel reached Hamburg three days after the food riots in that city, and in a letter to his father he states that the food riots in Hamburg grew out of the claim of citizens that a big meat packer was selling them sausages made from rats. The mob put the packer in a wagon and led him on a long parade, during which he was required to eat sausages while a sign bore the words "make him eat his own meat." The parade ended when they threw the packer into a river. Soldiers later quelled the riots.

Commander Smith returned to New York about two weeks ago, and last Wednesday sailed for the Pacific coast through the canal. His ship will be located at Bremerton, Wash., which is a great United States harbor.
